

# JML CONTRACTS

BUILDING & CIVIL ENGINEERING SERVICES

## RSPB Loch Leven Underpass B9097

**PROJECT:**  
RSPB LOCH LEVEN  
RETAINING WALL  
PACKAGE

**CLIENT:**  
RSPB / I & H BROWN

**VALUE:**  
£30k

**DESIGN, SUPPLY  
& INSTALL:**  
JML CONTRACTS LTD

**SYSTEMS USED:**  
TENSAR GREENSLOPE

### Project overview

JML Contracts carried out a design, supply and installation package for the retaining walls on this RSPB contract. Using site sourced materials for the structural fill allowed for considerable cost savings. The Tensar Greenslope system offers a completely green/vegetated face which was a requirement for the client so that the works blend with their surroundings.

The retaining walls were used to form an access to a new underpass beneath the B9097.
