

## Edinample Castle Hydro Scheme

**PROJECT:**  
FALLS OF EDINAMPLE  
HYDRO SCHEME

**CLIENT:**  
EDINAMPLE ESTATE

**VALUE:**  
£550k

**CIVILS WORKS:**  
RIVER WORKS, INTAKE  
WEIR, PIPE BRIDGE,  
POWERHOUSE AND  
ASSOCIATED WORKS

### Project overview

JML Contracts carried out all civils works on this sensitive heritage site on the shores of Loch Earn. Working closely with SNH and SEPA, JML installed an intake for the hydro scheme along with a new pipe bridge and powerhouse built into the hillside.

Being on the shores of the Loch, in close proximity to a fish farm, environmental awareness and good practice were an essential part of the works. The hydro is now in full operation, providing power to the estate and the National Grid.
